About SKOCH awards

The Skoch Awards celebrate human excellence and agents of change in Indian society. The Awards are based on the philosophy of spearheading positive socio-economic changes through recognising persons who have contributed immensely to salutary transformations in society and governance by displaying exemplary leadership abilities. They are the highest independently instituted civilian honours in India since 2003, when these were instituted, the Skoch Awards have become the only independent benchmark of best practices in India in the fields of governance, finance, banking, technology, corporate citizenship, economics and inclusive growth. These salute individuals, highlight projects and focus institutions that go the extra mile to make India a better nation. The Awards are conferred on the mighty and the ordinary alike.
